

STATEMENT OF PURPOSE

Personal Background:

I am very grateful for getting this opportunity and it is with sincere sense of gratitude that I pen my brief statement of purpose to the Australian High Commission, New Delhi, India as a part of student visa application process. Introducing myself, I am Susma Tamang, resident of budhanilkantha, Ward No: 19, Nepal holding a passport number 10935875, was born on 8th August 2000. There are 4 members in my family including my father, two elder sisters and myself. They all are my source of motivation and self-esteem. I am willing to pursue my further studies in certificate in individual support and ageing support at Stanley College, Perth, Australia; one of the truly great, innovative and multi-dimensional College of Australia with its amicable academic and excellent history.

Academic Background:

To begin with my academic history, I have completed my Schooling (SLC) from Joseph High School with 3.50 GPA in the year 2016 and +2 level from Kathmandu Unified City Secondary School with GPA 3.16 in the year 2018. Concerning my interests and ambition to become a nurse by Professional, I decided to extend my further education in this field. I made a decision to pursue my international degree. Hence in order to meet the requirement, I appeared International English Language Testing System (IELTS) examination on 28th July, 2018 A.D. and secured an overall band score of 6.5(L=7.5, S=6.5, R=6.5, W=6).

Reasons for choosing Certificate III in Individual Support and Certificate IV in Ageing Support:

My **selected** course of study at Stanley College is: CHC33015 Certificate III in Individual Support and CHC43015 in Ageing Support

Certificate in individual support and ageing care course is designed to assist students to be capable of enduring huge responsibility related to the health old people. Here, I will receive intensive English speaking training, academic skills preparation, as well as introduction to my

further chosen subject which will be advantageous for me. This course will help me to meet the required skills and knowledge to work as a professional health worker.

Working with older people can offer a whole new perspective on life. This course helps student to provide the knowledge and capacity to perform their work as professional nurse roles in many area. Individuals in these roles apply solution to range of problems. They will be able to handle tough situation by the knowledge (from both theoretical and practical) provided by the course. It allows student to prepare for the career in variety field which helps the students for communication, presentation, and problem solving skills. This course includes internships opportunities to provide students with practical experiences, which expose the students to accept the challenges of working in the international level.

After completing this course I will be able to develop some of the following skills:

- gain hands-on experience in the workplaces
- Link knowledge and skills
- improved communication skills
- Ability to provide patient-centered care
- assist in overall personal hygiene
- Able to work for the best interest of senior citizens

Reasons for choosing Australia for study rather than own home country or UK, Canada, USA etc

I was first concerned to accomplish my further studies in my own country, but studying abroad will definitely be more fruitful as compared to my own country. Many international students make up their mind to study in Australia because of the cultural diversity, friendly natives in which I can learn and travel freely to precede excellence, experience and high quality of education. Australia offers a wide variety of courses and degree as compared to Nepal. As compared to the Australian degree, Nepalese degree does not have much more courses but lack of enough resources, software, experienced lecturers and environment decreases the quality and productivity of the course. Australia has been ranked as the best country in terms of education. This ranking clearly shows Australia delivers best education. Due to the excellent education system, Australia is one of the most preferred nation among international students to pursue higher education. International students who successfully complete their degrees from Australian universities are highly sought due to the impressive

international reputation of the Australia carefully regulated by the Australian Government. Australia is an English spoken country so it will be easier for me to understand my courses properly. Australian educational experience makes a real difference because it provides different research opportunities to worthy professionals eager to heighten their career. I found out that, for over 20 years, Australia has led the world guaranteeing that international students receive high quality education they expect. Apart from its excellence education, Australia is generally a very safe place to live and study for international students. The Education Services for Overseas Student (ESOS) Act 2000 sets out the legal framework governing delivery of education to overseas students studying in Australia on a student visa. After researching a lot in the internet and in other sources and after the discussions with the advice from my seniors finally, I decided to do my further study in Australia. The major factor is Australian education in terms of course fee and living expenses is less expensive in comparison to other countries like USA and UK. Also, social security, peace and harmony are some of the best part of attraction for international student. It is an English speaking country with people from multi-cultural backgrounds which would allow me to gain wide-ranging exposure, learn life skill and get mentoring from world renowned faculties and entrepreneurs. It has high literacy and according to the Australian government website: www.studyinaustralia.gov.au it has eight of the top 100 universities and many renowned institutes in the world. Moreover, Australia has five of the 30 best cities in the world for students based on students mix, affordability, quality of life and cultural diversity. Particularly, the educational system of Australia is based on both theoretical and practical approaches and has quality education around the world. Australian Universities provide with approximately 22,000 courses in 1,100 institutions. Furthermore, Australian government is also very supportive and helpful for the international students because the government of Australia has ensured the rights of the international students through Education Services for Overseas Students (ESOS) Act 2000 and Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS). The ESOS promote quality education and protection of international students while CRICOS registration guarantees that the course and the institution meet the high standards expected by an international student. Additionally, the Australian Government provides more than AUD \$200 million for International Scholarships. Besides these advantages, I will be able to gain internationally recognized high quality diploma from a well-known institute. So, I made up my mind to gift my country something from the International Education. I have already spent more than 17 years here, now I want to add international value to my CV. This degree from Australia is going to make me highly

competitive in Nepal and also around the world. Therefore, in hope for a better career, I believe Australia would fit well about the description of not choosing Nepal for my further studies. Among the Australian Cities, I have chosen **Perth** as my study destination in Australia.

Reasons to study in Perth not Melbourne, Sydney or Brisbane etc :

Perth is the capital and largest city of the Australian state of Western Australia. It is the fourth-most populous city in Australia, with a population of about 2,022,044 in Greater Perth. It's a very safe and friendly city to live. The weather out there is hot and dry in the summer and cold and wet during winter. This is similar to my home country so I can adjust easily. Western Australia lead a relaxed but vibrant lifestyle, in a state with a rich history, remarkable environment, and a particular love of fine wine and food. Perth is the safest, cleanest, greenest and most affordable Australian city in which to study. Its size and sense of comfort means it provides an atmosphere conducive to study. It's a friendly and multicultural city, offering a real sense of community as well as a wide range of attractions and entertainment. The cost of living in Perth is much lower while comparing it with Sydney and Melbourne.

Reason for Choosing Stanley College:

The most challenging part about admission is selecting a perfect education provider for yourself. While doing so, the first thing to focus is quality of education obviously. But there are few things we cannot ignore, such as availability of public transport, physical infrastructure, location of college, fee structure, reputation of college and so on. After a lot of research, I found the Stanley College is a world-class institution with a rich history.

Stanley College is a prestigious institution that delivers an inspired, high-quality educational experience to students. In its pursuit to deliver a world-class education, Stanley focuses on the areas like learning and teaching, research and community engagement and soon. Stanley has the best student-to-staff ratios; ensuring students receive individual attention from lecturers and tutors in order to achieve academic success. It provides the gateway to the best Universities.

Beside these, campus offers following facilities:

- Weekday and Weekend flexible classes options
- Excellent international student services including on-arrival assistance, orientation and the overseas student association
- Student accommodation availability
- Provide different weekly social, sporting and cultural activities
- Provides employment services and Internships

Benefits from the study of Individual Support and Ageing support for future Career Plans and Aspirations:

Having a dream already of being a health professional in Nepal, I choose certificate in individual support and ageing support as one due to several reasons favouring my golden future in developing nation Nepal. It can fulfil my dream of being a great personality and as well quench to contribute for nation's development. After the completion of my course, I'm sure that I will be capable enough to work in the global market. After diploma, I will return back to my hometown and contribute my skills and practices for the benefit of Nepal. A person with proper knowledge, skill in this sector has plenty of opportunities in Nepal because of developing the concept of aged care. I am committed and hardworking person with my dream and determination to achieve my goals and as being a part of Stanley, I believe I can make an effort to bring new changes in this field. So, with the completion of this course from Australia would make me very competent and self-assured contender to compete in many renowned national and multinational hospitals or institute in Nepal where I can get plenty of jobs by the education which I obtained from Stanley.

I want to pursue my careers and make a contribution in this field in my country. Hereby, it is golden opportunity to step into the industry as well as a bright future. It will be a great chance for me to bring positive development in aged care in Nepal. Side by side, this profession has got great money and identity to be a great personality as well. My Australian education along with experience gained will be added advantage for me in the competitive job market.

My Ties To My Home Country:

My parents are my sponsor and they are happy with my decision. I belong to a well-established and financially secured family in the context of Nepal. They will pay my 1 year college fee and my all other living expenses during my stay in Australia. My family is economically sound and are having enough savings for my higher studies. Hence, with the support of my family both financially and morally, I have decided to study in Australia. As I have my whole family in Nepal, I have to return to my home country in order to help my family and live with them. The subject I chose have numerous job opportunities in my home country so I have decided to return and work on that field. I want to contribute to my country with the knowledge and experience that I will get from Stanley. I want my country to be well established and stable in individual and aged care support. This field will provide me enough job opportunities after my course completion and provide satisfy earning that will provide more encouragement to contribute more in this field.

Lastly, I am a genuine student and only have a motive for having a Genuine Temporary Entrant in Australia. I sincerely hope and firmly believe that my proposal will get due consideration and response. I also assure that I will abide by all the rules and regulations of Australia and will not involve myself in any unwanted activities. Therefore, it's my humble request you to open the doors and provide me an opportunity to be a student of your esteemed college. I wish to learn under the proper guidance of highly qualified and dynamic experts available in your college. This opportunity is sure to add a milestone for my future endeavours.

The information given above is true and correct from the best of my knowledge. I understand that incorrect or misleading information provides the education institution and department of immigration may result in refusal of my application for admission and student visa.

I am looking forward for your positive response.

Thank you.

Yours Sincerely,

Susma Tamang
